

I am appalled that Sinclair network has arranged - and insisted that its affiliates broadcast a biased film immediately before a presidential election.

This is a misuse of the airwaves that Sinclair has been granted access to. And makes Sinclair a target of resentment and distrust - a position that is harmful for all networks.

If the FCC allows this film to be broadcast, it should also give the opposing side an equal amount of time.

Please reconsider this decision. It is offensive to those of us who believe that America can function as a democracy.
